SIGMAGLIDE 890 HARDENER

SECTION 2: Hazards identification

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

| Hazard pictograms | |
|---|---|
| Signal word | : Danger |
| Hazard statements | Flammable liquid and vapour. Toxic if inhaled. Harmful if swallowed or in contact with skin. Causes serious eye damage. Causes skin irritation. May cause an allergic skin reaction. May damage fertility. May damage the unborn child. Suspected of causing genetic defects. May cause damage to organs. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure. Toxic to aquatic life with long lasting effects. |
| Precautionary statements | |
| Prevention | : Wear protective gloves. Wear protective clothing. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe vapour. |
| Response | : IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| Storage | : Store in a well-ventilated place. Keep cool. |
| Disposal | : Not applicable. |
| | ₱280, P210, P260, P304 + P340, P303 + P361 + P353, P305 + P351 + P338, P403, P235 |
| Hazardous ingredients | : pentane-2,4-dione tetraethyl silicate dibutylbis(pentane-2,4-dionato-O,O')tin |
| Supplemental label elements | : Not applicable. |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : Restricted to professional users. |
| Special packaging requirem | nents |
| Containers to be fitted with child-resistant fastenings | : Not applicable. |
| Tactile warning of danger | : Not applicable. |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830

Code : 00240642 SIGMAGLIDE 890 HARDENER Date of issue/Date of revision

: 28 July 2017

SECTION 2: Hazards identification

2.3 Other hazards

Other hazards which do : Prolonged or repeated contact may dry skin and cause irritation. **not result in classification**

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

- Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] Substance of equivalent concern
- [6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

SECTION 4: First aid measures

4.1 Description of first aid measures Eye contact : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention. : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is Inhalation irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. **Skin contact** : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners. : If swallowed, seek medical advice immediately and show the container or label. Keep Ingestion person warm and at rest. Do NOT induce vomiting. : No action shall be taken involving any personal risk or without suitable training. If it is **Protection of first-aiders** suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

4.2 Most important symptoms and effects, both acute and delayed

| Potential acute health effects | | | | |
|---------------------------------------|---|------|--|--|
| Eye contact | Causes serious eye damage. | | | |
| Inhalation | Foxic if inhaled. May cause respiratory irritation. | | | |
| Skin contact | Harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. | | | |
| Ingestion | Harmful if swallowed. | | | |
| Over-exposure signs/symptor | <u>ns</u> | | | |
| Eye contact | : Adverse symptoms may include the following: pain watering redness | | | |
| Inhalation | : Adverse symptoms may include the following: respiratory tract irritation coughing reduced foetal weight increase in foetal deaths skeletal malformations | | | |
| Skin contact | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations | | | |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced foetal weight increase in foetal deaths skeletal malformations | | | |
| 4.3 Indication of any immediate | medical attention and special treatment needed | | | |
| · · · · · · · · · · · · · · · · · · · | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | | | |
| English (GB) | United Kingdom (UK) | 4/16 | | |
| | | | | |

| Conforms to Regulation (EC |) No. 1 | 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830 |
|---|----------------|---|
| Code : 00240642 SIGMAGLIDE 890 HARDENE | R | Date of issue/Date of revision : 28 July 2017 |
| SECTION 4: First aid | d me | easures |
| Specific treatments | : N | No specific treatment. |
| SECTION 5: Firefigh | nting | measures |
| 5.1 Extinguishing media | | |
| Suitable extinguishing media | : L | Jse dry chemical, CO ₂ , water spray (fog) or foam. |
| Unsuitable extinguishing media | : [| Do not use water jet. |
| 5.2 Special hazards arising | from ti | he substance or mixture |
| Hazards from the substance or mixture | lr ti la | Mammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with he risk of a subsequent explosion. This material is toxic to aquatic life with long asting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion products | С | Decomposition products may include the following materials: carbon oxides netal oxide/oxides |
| 5.3 Advice for firefighters | | |
| Special precautions for fire fighters | tł tr | Promptly isolate the scene by removing all persons from the vicinity of the incident if here is a fire. No action shall be taken involving any personal risk or without suitable raining. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters | b n c | Fire-fighters should wear appropriate protective equipment and self-contained preathing apparatus (SCBA) with a full face-piece operated in positive pressure node. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, protective equipment and emergency procedures | | |
|---|---|---|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| 6.2 Environmental precautions | : | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage. |

6.3 Methods and material for containment and cleaning up

| Code SIGMAGLID | : 00240642 E 890 HARDENER | Date of issue/Date of revision | : 28 July 2017 |
|--|------------------------------|--------------------------------|----------------|
| SECTION 6: Accidental release measures | | | |

| Small spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
|---------------------------------|--|
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. |

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

SECTION 9: Physical and chemical properties

| - | |
|---|---|
| 9.1 Information on basic physical | and chemical properties |
| <u>Appearance</u> | |
| Physical state | : Liquid. |
| Colour | : Colourless. |
| Odour | : Aromatic. |
| Odour threshold | : Not available. |
| рН | : insoluble in water. |
| Melting point/freezing point | : May start to solidify at the following temperature: 25.1°C (77.2°F) This is based on data for the following ingredient: dibutylbis(pentane-2,4-dionato-O,O')tin. Weighted average: -52.72°C (-62.9°F) |
| Initial boiling point and boiling range | : >37.78°C |
| Flash point | : Closed cup: 30°C |
| Evaporation rate | : Not available. |
| Material supports combustion. | : Yes. |
| Flammability (solid, gas) | : liquid |
| Upper/lower flammability or explosive limits | : Lower: 1.74% Upper: 14.57% |
| Vapour pressure | Highest known value: 0.9 kPa (7 mm Hg) (at 20°C) (pentane-2,4-dione). Weighted average: 0.52 kPa (3.9 mm Hg) (at 20°C) |
| Vapour density | : Highest known value: 7.22 (Air = 1) (tetraethyl silicate). Weighted average: 5.16 (Air = 1) |
| Relative density | : 0.96 |
| Solubility(ies) | : Insoluble in the following materials: cold water. |
| Partition coefficient: n-octanol/ water | : Not applicable. |
| Auto-ignition temperature | : 335°C |
| Decomposition temperature | : Stable under recommended storage and handling conditions (see Section 7). |
| Viscosity | : Kinematic (40°C): >0.21 cm ² /s |
| Explosive properties | : Product does not present an explosion hazard. |
| Oxidising properties | : Product does not present an oxidizing hazard. |
| | |

9.2 Other information

No additional information.

| SECTION 10: Stability and reactivity | | | | |
|--|--|--|--|--|
| 10.1 Reactivity | : No specific test data related to reactivity available for this product or its ingredients. | | | |
| 10.2 Chemical stability | : The product is stable. | | | |
| 10.3 Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. | | | |
| 10.4 Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. | | | |
| | Refer to protective measures listed in sections 7 and 8. | | | |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830 Code <th::00240642</th> Date of issue/Date of revision : 28 July 2017 SIGMAGLIDE 890 HARDENER SECTION 10: Stability and reactivity

SECTION 10: Stability and reactivity

10.5 Incompatible materials : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.

10.6 Hazardous decomposition products

: Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

SECTION 11: Toxicological information

| Not available. | |
|---|---|
| Information on likely routes of exposure | : Not available. |
| Potential acute health effects | |
| Inhalation | : Toxic if inhaled. May cause respiratory irritation. |
| Ingestion | : Harmful if swallowed. |
| Skin contact | : Harmful in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. |
| Eye contact | : Causes serious eye damage. |
| | sical, chemical and toxicological characteristics |
| Inhalation | : Adverse symptoms may include the following: respiratory tract irritation coughing reduced foetal weight increase in foetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced foetal weight increase in foetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations |
| Eye contact | : Adverse symptoms may include the following: pain watering redness |
| Delayed and immediate effec | ts as well as chronic effects from short and long-term exposure |
| <u>Short term exposure</u> | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| <u>Long term exposure</u> | |
| Potential immediate effects | : Not available. |
| · · · · · · · · · · · · · · · · · · · | : Not available. |
| Potential chronic health effect | <u>ets</u> |
| Not available. | |
| Conclusion/Summary | : Not available. |
| General | : May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| English (GB) | United Kingdom (UK) 11/16 |

| Code | : 00240642 | Date of issue/Date of revision | : 28 July 2017 |
|------------|--------------|--------------------------------|----------------|
| SIGMAGLIDE | 890 HARDENER | | |

SECTION 11: Toxicological information

| Carcinogenicity | : No known significant effects or critical hazards. |
|-----------------------|---|
| Mutagenicity | : Suspected of causing genetic defects. |
| Teratogenicity | : May damage the unborn child. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects | : May damage fertility. |
| Other information | : Not available. |

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapour concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Contains dibutylbis(pentane-2,4-dionato-O,O')tin. May produce an allergic reaction.

SECTION 12: Ecological information

12.1 Toxicity

Conclusion/Summary : Not available.

12.2 Persistence and degradability

Conclusion/Summary : Not available.

12.3 Bioaccumulative potential

| Product/ingredient name | LogP _{ow} | BCF | Potential |
|-------------------------|--------------------|-----|-----------|
| pentane-2,4-dione | 0.4 | - | low |

12.4 Mobility in soil

| Soil/water partition coefficient (Koc) | : Not available. |
|--|------------------|
| Mobility | : Not available. |

| 12.5 Results of PBT | and vPvB assessment |
|---------------------|---------------------|
|---------------------|---------------------|

| PBT | : Not applicable |
|-----|------------------|
| | |

- vPvB : Not applicable.
- **12.6 Other adverse effects** : No known significant effects or critical hazards.

| Code | : 00240642 | Date of issue/Date of revision | : 28 July 2017 |

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

| Product | |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | : Yes. |

European waste catalogue (EWC)

| Waste code | Waste designation |
|------------|---|
| 08 01 11* | waste paint and varnish containing organic solvents or other hazardous substances |

Packaging

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

| Type of packaging | European waste catalogue (EWC) | |
|---------------------|--|--|
| Container | 15 01 06 | mixed packaging |
| Special precautions | taken when Empty conta residues ma container. I thoroughly i | al and its container must be disposed of in a safe way. Care should be handling emptied containers that have not been cleaned or rinsed out. ainers or liners may retain some product residues. Vapour from product ay create a highly flammable or explosive atmosphere inside the Do not cut, weld or grind used containers unless they have been cleaned internally. Avoid dispersal of spilt material and runoff and contact with rays, drains and sewers. |

14. Transport information

| | ADR/RID | ADN | IMDG | IATA |
|------------------------------------|---------------------------|---------------------------|---|---|
| 14.1 UN number | UN1263 | UN1263 | UN1263 | UN1263 |
| 14.2 UN proper shipping name | PAINT RELATED MATERIAL | PAINT RELATED MATERIAL | PAINT RELATED MATERIAL | PAINT RELATED MATERIAL |
| 14.3 Transport hazard class(es) | 3 | 3 | 3 | 3 |
| 14.4 Packing group | III | III | III | III |
| 14.5 Environmental hazards | Yes. | Yes. | Yes. | Yes. The environmentally hazardous substance mark is not required. |
| Marine pollutant substances | Not applicable. | Not applicable. | (dibutylbis(pentane-2, 4-dionato-O,O')tin) | Not applicable. |

Additional information

ADR/RID

: The environmentally hazardous substance mark is not required when transported in sizes of ≤5 L or ≤5 kg.

SECTION 16: Other information

Indicates information that has changed from previously issued version.

Abbreviations and acronyms

ATE = Acute Toxicity Estimate

CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]

DNEL = Derived No Effect Level

EUH statement = CLP-specific Hazard statement

PNEC = Predicted No Effect Concentration

RRN = REACH Registration Number

PBT = Persistent, Bioaccumulative and Toxic

vPvB = Very Persistent and Very Bioaccumulative

ADR = The European Agreement concerning the International Carriage of Dangerous Goods by Road

ADN = European Provisions concerning the International Carriage of Dangerous Goods by Inland Waterway

IMDG = International Maritime Dangerous Goods

IATA = International Air Transport Association

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification | Justification |
|---|-----------------------|
| Flam. Liq. 3, H226 | On basis of test data |
| Acute Tox. 4, H302 | Calculation method |
| Acute Tox. 4, H312 | Calculation method |
| Acute Tox. 3, H331 | Calculation method |
| Skin Irrit. 2, H315 | Calculation method |
| Eye Dam. 1, H318 | Calculation method |
| Skin Sens. 1, H317 | Calculation method |
| Muta. 2, H341 | Calculation method |
| Repr. 1B, H360FD (Fertility and Unborn child) | Calculation method |
| STOT SE 2, H371 | Calculation method |
| STOT SE 3, H335 | Calculation method |
| STOT RE 2, H373 | Calculation method |
| Aquatic Chronic 2, H411 | Calculation method |

Full text of abbreviated H statements

| 11000 | Element a linuid and constant |
|-------------|--|
| H226 | Flammable liquid and vapour. |
| H302 | Harmful if swallowed. |
| H311 | Toxic in contact with skin. |
| H312 | Harmful in contact with skin. |
| H314 | Causes severe skin burns and eye damage. |
| H315 | Causes skin irritation. |
| H317 | May cause an allergic skin reaction. |
| H318 | Causes serious eye damage. |
| H319 | Causes serious eye irritation. |
| H331 | Toxic if inhaled. |
| H332 | Harmful if inhaled. |
| H335 | May cause respiratory irritation. |
| H341 | Suspected of causing genetic defects. |
| H360FD | May damage fertility. May damage the unborn child. |
| H370 | Causes damage to organs. |
| H371 | May cause damage to organs. |
| H372 (oral) | Causes damage to organs through prolonged or repeated |
| | exposure if swallowed. |
| H373 | May cause damage to organs through prolonged or repeated |
| | exposure. |
| H400 | Very toxic to aquatic life. |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H411 | Toxic to aquatic life with long lasting effects. |
| | |
